Innovative Control Systems®

Welcome ICS

Joining Forces to Offer Total Vehicle Wash Solutions

The addition of Innovative Control Systems® (ICS) to the OPW family enables OPW Vehicle Wash Solutions to add to its world-class product portfolio by joining forces with one of the vehicle wash industry's true pioneers in the area of payment terminals, process controls, software management systems and equipment automation. ICS's suite of products are designed to provide all car wash operators with improved profitability and reduced operational costs.

- Contactless Payment with Tap N Go & Mobile Pay
- Industry Leading WashConnect Management Software

IMPROVE
ROI

If your dryers aren't getting the job done, the new MaxAir will not only help bring customers back, it will help your ROI.

NEW

MaxAir 6-Nozzle SideKick Side Producers

MAXAIR Dryer System

- The new SwingAir QUAD incorporates oscillating motion into ALL FOUR top producers to improve drying performance as it sweeps water off of the vehicle
- For additional drying enhancement, include the two optional outside stationary producers to focus on pushing water down and off the sides of the vehicle
- MaxAir's new Stainless Steel frame (free-standing and wall mounted options) provides natural corrosion resistance from the harsh car wash environment

MORE
CUSTOMERS!

BayGlow Wash Bay Illumination System

The BayGlow system has been designed to be an eye-catching addition to any vehicle wash to increase the entertainment value of the wash experience, along with wash revenue.

- Proudly display multiple color combinations, flashing patterns, or a constant colored illumination that matches your brand image
- Illuminate your bay even when not washing vehicles, let BayGlow help direct customers to your wash
- Integrated mounting system allows for ease of installation to wall, ceiling or rails
